

Akmal Irsyad dwi yulianto

Bekasi City, West Java, Indonesia | akmalirsyad137@gmail.com | portfolio-gogoro.vercel.app | [linkedin](#)

Junior Fullstack Developer with fundamental skills in backend development utilizing PHP and Laravel, along with frontend experience in JavaScript and Node.js. Proficient in creating and using REST APIs for seamless system integration. Skilled in using Bootstrap and Tailwind CSS to create responsive and visually appealing user interfaces. Eager to further enhance my knowledge and skills through best practices and collaborative teamwork.

PROJECT

Web2KA28 (Website - FullStack)

May 2024 - July 2024

- Built with Laravel and Tailwind, it uses simple CRUD and One-to-Many relationships with MySQL. It integrates with the OpenWeatherMap API to provide real-time weather information, including temperature, humidity, wind speed, and weather conditions for a specific location. [more info](#)

GogoroOto (Website - FrontEnd Developer)

November 2024 - December 2024

- GogoroOto is a web platform that simplifies the buying and selling of new and used cars. The website displays a car catalog with comprehensive information, including specifications, prices, and attractive images. It uses TechStack Nextjs (TypeScript) and Tailwind CSS. [more info](#)

Arduino Radar (Arduino R3)

December 2024

- Built a mini radar system using Arduino Uno, ultrasonic sensor (HC-SR04), and servo motor to detect objects based on distance and angle. Implemented real-time visualization with Processing IDE to simulate a 2D interactive radar interface. [more info](#)
- Technologies: Arduino Uno, HC-SR04 Ultrasonic Sensor, Servo Motor, Processing IDE, C/C++

Waktu Indonesia Bergerak (Wordpress - PT nusa inti solusi)

December 2024 - Present

- Developed and maintained the official WordPress site for Waktu Indonesia Bergerak (WIB)—a non-profit organization focused on community empowerment, public transparency, and sustainable development. Features include organizational profile, leadership structure, dynamic registration & complaint forms, news section, program strategy pages, and contact directory. Designed with clear navigation and responsive layout. [more info](#)
- Technologies: WordPress, PHP, HTML/CSS, forms & dynamic content plugins.
